PIV in a hydraulic canal

Erdi ÇAN

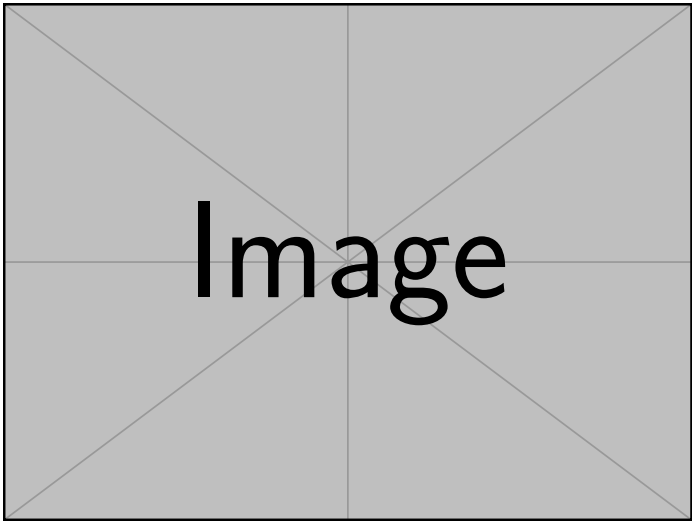

Sorbonne Université & Institut Polytechnique de Paris

October 25, 2026

Overview

1. Experimental setup
2. Unperturbed flow
3. Kelvin-Helmholtz instability
4. Boundary layer

Experimental setup

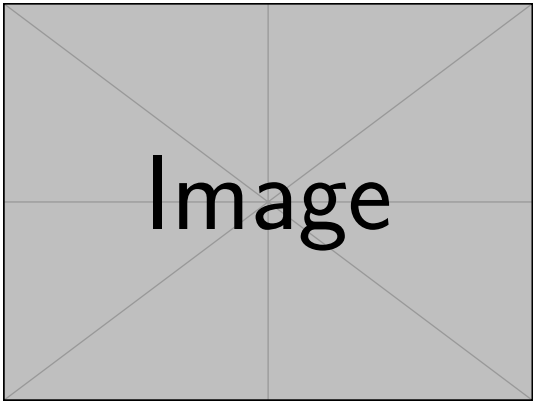

Figure: Schematic of the experimental setup

- Camera:
- Laser:
- Lenses:
- Power supply for laser:
- Dimensions of the canal:

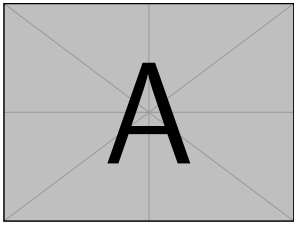

Figure: The experimental setup

Experimental setup

HOw do we do our setup and caractheristic

Default flow

Kelvin-Helmholtz instability

Boundary layer

Trying velour, plexiglass, and maybe other bottoms
